U11 Kestrels

The **Kestrel's** enjoyed another successful season with all the boys playing their part in a very much team effort!

With **Oliver** and **Sam** away most weeks on Wycombe District duty it left the squad at times with just enough players to field a team with no subs, but this in turn allowed the boys more pitch time and we believe their game has benefited enormously.

In goal **Danny** has once again been outstanding; his bravery and good judgement is a great asset.

William has largely been a mainstay in defence, energy and confidence in abundance. He really brings the whole team together consistently.

Thomas's game has improved tremendously, not just with his play but also in decision making.

Caleb's character shines through in his football and supports the team massively as he is always willing to play in any position.

Joel is a new signing to the team this

season. Already a popular member, he always gives us 100% and plays with a smile on his face which reflects in the fantastic progress he's made.

Ciaran's speed and awareness has contributed enormously to what has been a tight defence, a very fair and sporting player.

James is always a willing worker who is quick and tireless. His tackling and passing are not recognisable from last season and is now comfortable in attack and defence.

Ben has become a leader on the pitch, as a defender he reads the game well with timely interceptions and good passing turns attack in to defence. Ben has also shown an eye for goal when asked to push forward into mid-field or when leading the line.

Edward, whilst still chipping in with the odd goal when playing up front, has become the first choice left back. He is tenacious and persistent and is beginning to show confidence in a new

found passing ability.

Ethan is tricky, quick and skilful. An ever present in the team and the first choice right midfielder, when his confidence is high he is a match for any defender.

Hamish has been outstanding this season and has relished the added responsibility in the absence of some of our players. He has chased every ball and worried many a defence.

Daniel is new to the team and has shown that he is a good all-rounder with good performances in attack and defence. Quick and strong, is destined to become a mainstay of the team.

Sam and **Oliver** on the few occasions these two boys have graced the team they have shown their skill and ability as well as their passion for the club. Both boys are looking forward to re-establishing themselves in the team and playing with their mates once again.
